

INVITATION FOR JUDGING

WHAT IS NORDICHACK ?

NordicHack is a local hosted, **24-hour hackathon** with the aim of engaging students into challenging extra-curricular activities. The hackathon will take place at **UCN's campus Sofiendalsvej** between the **23rd** and **24th** of **February 2018**.

WHAT IS IT ALL ABOUT ?

The theme of the hackathon is **"imagine tomorrow by hacking today"** and we are looking for any innovative hacks that can potentially be built/ prototyped within 24 hours. Participation will be free of charge and it will be open to students or graduates who have graduated within one year prior to the event. We are aiming at an approximate of **75 – 100 participants** or more. The participants will be divided into **teams of 3 to 5**.

WHAT WE NEED ?

Besides our mentors, partners and sponsors, we also need **judges**, that's why we reached out to you! Judges will be present at the event during the judging period only, which is close to the end of the event (Saturday 24th of February). A more detailed schedule will be provided in **week 7**.

WHAT CAN YOU HELP US WITH ?

As mentioned before, the main purpose of the judges is to provide a **professional expertise** when selecting the winners for our categories. We will need experts within the fields of **innovation**, **programming**, **design**, **business** or **communication**, who can objectively choose the **best projects**, which is why we chose to invite you to be part of our awesome event!

WHAT TO DO WITH ALL THIS INFORMATION ?

Please confirm if you will participate as a judge in NordicHack this February by writing us an email at **ab@nordichack.com** no later than **05.02.2018**. Also, a meeting prior to the event will be set soon so you can have all details about what, where, when and how!

We look forward to hearing back from you !

The **NordicHack** team
